

# 911

## Teddy Swims

If there's a fire in your kitchen  
And when your roof just won't stop leaking  
I got your back without you even asking  
If I gotta whoop somebody's ass, I'ma do it with passion  
(Mmm)

And when it gets too dangerous  
Know I'm never out of touch

Ain't gotta call 911, you can hit me up  
Girl, you know I'm the one whenever you need something  
An emergency, or when you just can't sleep  
And I'll slide through for ya with that urgency

Might rock the boat, but don't panic  
Might take you home to Atlanta  
Might be rushin' in, but goddamn  
Wanna know you like the back of both my hands  
MMMBop the mmm like I'm Hanson  
You're tall, dark, and I'm handsome  
Grab something new, but old-fashioned  
Lucky me, I get to be your man

Things don't go as planned  
But who gon' save you like I can?

Ain't gotta call 911, you can hit me up (You can hit me up)  
Girl, you know I'm the one whenever you need something (Whenever you need something)  
An emergency, or when you just can't sleep (You just can't sleep)  
And I'll slide through for ya with that urgency right away

(Right, right, right away  
Right, right, right away) Right away  
(Right, right, right away  
Right now, right now) Right away  
(Right, right, right away) Right away yeah  
(Right, right, right away)

When your back's against the wall  
Baby, you know who to call

Ain't gotta call 911, you can hit me up (You can hit me up)  
Girl, you know I'm the one whenever you need something (You need something)

An emergency, or when you just can't sleep (When you just can't sleep)  
And I'll slide through for ya with that urgency

I'll slide
