

Shut Up Kenny

Walker Hayes

You gotta be kidding me Chesney
Every time I turn the ignition, you're on the radio again
And in the shotgun of my vision
There she is where she was but she's not
Thanks a lot man
Hey like my heart needs your help in the breaking department
Yeah she's already got that taken care of
No offense but Shut up Kenny
Leave me alone, keep your songs to yourself
Why you gotta sound just like she felt?
When your stuff was the shit we drove around to
And even your sad songs were fun to make out to
Come on Kenny
Man you know I like your music
But I hate the way I like the way it hurts when I listen to it
I know I need to rip the radio out the dash but I can't
Damn
Shut up Kenny
Kenny please
Hell even your new tracks hurt
Your voice is like a mean time machine
It only goes backwards
Ain't a station you ain't on
Need to change it but I don't really want to
I just keep loving her
And hating you Shut up Kenny
Leave me alone, keep your songs to yourself
Why you gotta sound just like she felt?
When your stuff was the shit we drove around to
And even your sad songs were fun to make out to
Come on Kenny
Man you know I like your music
But I hate the way I like the way it hurts when I listen to it
I know I need to rip the radio out the dash but I can't
Damn
Shut up Kenny
Shut up Kenny
Shut up Kenny
Leave me alone, keep your songs to yourself
Why you gotta sound just like she felt?
When your stuff was the shit we drove around to
And even your sad songs were fun to make out to

Come on Kenny
Man you know I like your music
But I hate the way I like the way it hurts when I listen to it
I know I need to rip the radio out the dash but I can't
Damn
Shut up Kenny (Every time I turn the ignition)Come on Kenny (Every time I turn the ignition)
Every time I turn the ignition, you're on the radio again
And in the shotgun of my vision
There she is where she was but she's not
Thanks a lot
Man
Hey like my heart needed your help in the breaking department
